

To Whom It May Concern:

XM Radio's traffic and weather reports far surpass any local traffic coverage of the matter.

If a citizen wishes to purchase this service without interruption of commercial messages and idol chatter I don't see why we should not be allowed to do so. I believe we are all tired of sifting through bias at any level, even if it is just traffic and weather reports.

The free enterprise system can work just fine if allowed to. Please do not allow lobbying by big media money to control with prejudice the free flow of information, even if it just traffic reports. What are they afraid of?
